20/03	<p>Traffic signals at Spofforth Street and Cabramatta Road:</p> <p>A resident of Cremorne has noted that the cycle of the traffic signals when crossing Military Road at Spofforth Street and Cabramatta Road is 145 seconds, including 121 seconds for the traffic phase and 24 seconds for the pedestrian walk phase. The resident suggests that the cycle time has increased from 2 minutes and pedestrians have only been given 2 extra seconds but are required to wait longer, but motorists have been given an extra 30 seconds.</p> <p>The resident has also queried why there are right turn phases into Spofforth Street before and after the pedestrian walk phase in the same cycle, and whether 9 seconds has been reallocated from the pedestrian phase resulting in more waiting time.</p>	<p>1/7/20: The email from the resident has been forwarded to TfNSW for their attention as the Road Authority for Military Road and all signalised intersections.</p>
