BACKGROUND

This report provides a list of the applications received by Council between 1 January 2020 and 31 March 2020.

Its purpose is to provide Councillors and other interested persons with some understanding of the application types received and process by the Development Services Department.

During this period 108 applications of all types were received. Of those 58 applications have already been determined as of 25 May 2020.

A total of 132 applications were determined in Q3 of financial year 2019/20.

CONSULTATION REQUIREMENTS

Community engagement is not required.

DETAIL

From time to time considerable interest is expressed by Councillors, applicants, property owners and the broader community regarding the receipt and processing of development applications.

The attached computer generated report summarises the applications received by Council in Q3 of the 2019/2020 financial year.

Contained within the report is:

- The application number expressed as year, sequential number and modification number, if any; i.e. 2005/92/5 is modification 5 to an application originally received and determined in 2005;
- The date received by Council;
- The determination date if applicable;
- A brief description of the proposal;
- The property address;
- The applicant's name;
- The estimated cost for new applications; and
- A brief description of the type of application.

Full details of each application are available through DA Tracking on Council's website. Owner details are not provided in this report due to privacy concerns.

A version of this report is also created on a monthly basis and these reports, in conjunction with an outstanding application by officer report, are used for application management and work allocation purposes by Team Leaders and Management within the Development Services Department.

Trend Analysis

It is important to have regard to the trends demonstrated by application lodgment. The last month of Quarter 3 appears to have been impacted by the initial wave of the COVID-19 crisis. This may be reflected in the total number of applications received being some 10% below the mathematical average of the preceding seven years as well as 10 % below that of the number of applications lodged for Q3 of the last financial year; 2018/19.

Early indications are that application lodgement for Q4 seems down by a similar, if not greater amount but a fuller picture will only be seen at the end of June and it may not be clear until the end of Q1 of the 2020/21 financial year the true impact of COVID-19 on application lodgement in North Sydney.

It is of note that Q1 and Q2 of this financial year were 2 % more and 3% less respectively than the average of the last 7 years and are respectively 2% more (3 applications) and 3 % less (by 7 applications) compared with the same period last financial year. Essentially application submissions remained within anticipated levels for these quarters.

CONCLUSION

This report is provided for the information of Councillors and other interested parties.
