

10.13.Policy for use of animal products - Response to Council Resolution

AUTHOR: Ian Hoskins, Council Historian

ENDORSED BY: Rebecca Aukim, Director Community and Library Services

ATTACHMENTS: Historical Services Collection Management Policy; Deaccession Policy Artworks and Cultural and Historical Collections

PURPOSE:

To respond to Council's resolution of 12 December 2022 concerning Council's use of leather and fur products.

EXECUTIVE SUMMARY:

Leather and fur products such as shoes and Mayoral robes lined with mock sable fur are held within Council's Historical Services Collection and, in the past, have been used in civic events. The collection also has many pairs of leather shoes, three 19th century fans made from ostrich feathers, an ostrich feather boa from the 1920s and so forth.

This report recommends adherence to the existing Historical Services Collection Management and Deaccession Policies with regards to the acquisition, retention, display and 'retiring' of items containing leather and fur.

FINANCIAL IMPLICATIONS:

There are no financial implications in relation to this matter.

RECOMMENDATION:

- 1. THAT** Council notes the existing Collection Management and Deaccession Policy and its applicability to leather and fur products of historical significance.
- 2. THAT** no further policy be required.

LINK TO COMMUNITY STRATEGIC PLAN

The relationship with the Community Strategic Plan is as follows:

BACKGROUND

At its meeting on 12 December 2022, Council resolved:

- 1. THAT Council prepare a policy to address the use of fur or leather in all formal events or events held on Council property.*
- 2. THAT the report include advice from Council's Historian and the Aboriginal Heritage Office in relation to the retiring of controversial Council-owned leather and fur items.*
- 3. THAT if said items are ever put on display for historic or educational purposes they are framed in the context of their time, and that Council disapproves of the creation of any NEW items of leather or fur.*

CONSULTATION REQUIREMENTS

There are no consultation requirements associated with the recommendation in this report.

DETAIL

Council has historically used many products made from animal derived materials. Glues and food stuffs, for instance, might include traditional gelatin. Cutlery may have bone handles. The issue of the exploitation of animals for human needs is complex and vexed.

It has been assumed for the purposes of this report that the scope of the requested policy is limited to the Historical Services Collection. This report addresses the management and use of these items. It does not extend to other areas of procurement nor the use of leather and fur for operational purposes.

Council's Historical Services Team manages the collections in their care by reference to the Collection Management and Deaccession Policies. These are based upon the principles of historical significance and condition. Objects are acquired by purchase or donation if they help tell something about the history of North Sydney. An object is deaccessioned - 'retired' - with great caution - only after its relevance is determined to be minimal or non-existent, or its condition is too poor to warrant preserving.

Objects should not be acquired or deaccessioned on the basis of their materiality i.e. whether they are made of fur, leather, feathers, bone etc. It is a historical reality that the production

of clothing, furniture, equipment and so forth involved the exploitation – typically the killing – of animals. Council’s historical collection necessarily has many items made from leather, shoes for instance, and some which incorporate fur such as mayoral robes. There are fans and a 1920s-era boa made of ostrich feathers. All can tell something of the story of North Sydney. None are used in official events.

The Aboriginal Heritage Office has not been consulted on this issue due to the existence of existing policies.

With regards to Point 3 of the Resolution; objects put on display are always labelled with appropriate information about their context and manufacture. It is not recommended that each label contain a mandatory condemnation of the use of leather etc. as this will impede the ability of curators to present the necessary historical information. It may be possible to generally refer to Council disapproval of the contemporary use of leather, fur, or feathers.

Policy Owner: Director Community and Library Services

Category: 4. Our Social Vitality

1. STATEMENT OF INTENT

- 1.1 Stanton Library Historical Services aims to collect, document, preserve and provide access to cultural, historical and educational resources, in a range of formats, which are relevant to past and present people, places and activities of the North Sydney Local Government Authority area.
- 1.2 All collection management will be conducted in accordance with the ICOM Code of Ethics for Museums, within the framework of the NSW Heritage Office Movable Heritage Principles and in accordance with State and Federal law and international agreements between Australia and other countries.

2. ELIGIBILITY

- 2.1 This policy applies to the following collections managed by Historical Services:
 - 2.1.1 **David Earle Local Studies Collection** - Collection of reference and research resources, begun in 1974. David Earle was an active member of the heritage conservation movement of the 1970s, and documented much of North Sydney's built landscape.
 - 2.1.2 **Merle Coppell Oral History Collection** - Collection of interviews recorded with members of the North Sydney community. Merle Coppell was a dedicated local oral historian whose body of work from the 1980s forms the basis of this collection.
 - 2.1.3 **North Sydney Council Archives** - Stanton Library is the repository for a large number of inactive primary records and record series of North Sydney Council. In 1979, Council transferred some early records to the Library including rate and valuation books, minute books, engineering plans, and subject files. A significant body of Council records, covering the period 1903-1971, was discovered at the Central Depot in 1989 and accessioned in 1991. These are collectively referred to as the 'historic archives'.
 - 2.1.4 **North Sydney Community Archives** - Largely unpublished material forming part of the documentary heritage of North Sydney, collected since the 1980s. It is comprised of papers, photographs and some objects

Adopted by Council 25 June 2018

(realia) relating to defunct community organisations, individuals and families.

- 2.1.5 **Don Bank Museum Collection** - Don Bank was acquired by Council in 1979 and opened as a local history museum in 1981. Objects and textiles collected by the North Shore Historical Society from 1970 onwards, and transferred to Don Bank Museum Trust in 1981, form the core of this collection. This collection passed in to the ownership of Council with the dissolution of the Trust in the 1980s.
- 2.1.6 **Sexton's Cottage Museum Collection** - Sexton's Cottage was acquired by Council in 1967, as part of St Thomas' Cemetery (now Rest Park), and opened as a local history museum in 1986. The collection includes research resources on the history of the Cemetery, remnants of monuments, and artefacts relating to the Cemetery and the history of Australian funereal practice.
- 2.1.7 **Large Picture Collection** - Collection of historical and contemporary artwork and photographs acquired from various sources including Council activities, North Shore Historical Society donations and more recent donations and purchases. The North Sydney Art Prize has been a rich source of acquisition. These are acquired in consultation with the Arts and Culture team.
- 2.1.8 **North Sydney Heritage Centre Collection** - Collection of historical and cultural artefacts acquired since 1999, stored at North Sydney Heritage Centre and the storage facilities at Council's Ernest Street Depot.
- 2.2 Material will be considered for accession if it meets one or more of the following primary criteria (as specified in Collections Council of Australia Significance 2.0: a guide to assessing the significance of collections):
- 2.2.1 **Historic significance** - associated with an important North Sydney person, group, event, place, period, activity, industry or theme
- 2.2.2 **Artistic or aesthetic significance** - depicts an important North Sydney place, person, period, activity, story, idea or event; or represents the work of an important North Sydney artist, writer, designer or creator

- 2.2.4 **Social or spiritual significance** - embodies beliefs, ideas, customs, traditions, associations, practices, places or stories that are important for a particular group within the North Sydney community

 - 2.3.2 **Rarity or representativeness** - unusual/unique material, or a good example of its type
 - 2.3.3 **Condition or completeness** - original condition is generally preferable to material which shows repairs/alterations, unless this provides evidence of provenance
 - 2.3.4 **Interpretive capacity** - relevance to Historical Services programs in terms of the material's historical, geographic, artistic or environmental context
- 2.4 Any decision to acquire material which meets the above criteria will also be based on the following practical considerations:

 - 2.4.2 Ability of Historical Services to store the material in suitable conditions to ensure both preservation and public access

3. DEFINITIONS

4.4.2 **Access**

- a) Public access will be provided to all collections, except where sensitivity or special conditions determine restriction, or where access may threaten the preservation of material. In such cases, copies, including digital versions, will be provided for research where possible and practical.
- b) Public access will be facilitated via the Heritage Centre enquiry desk, appointment with Historical Service staff outside of scheduled desk hours, online databases, Heritage Centre exhibitions and museum displays, and public programs.

Condition of the material will be recorded and evidence of damage at the time of receipt reported immediately to the lender.
- e) Unless otherwise notified in writing, material will be returned only to the lender. If Historical Services' efforts to contact the lender within a reasonable period following the expiration of the loan are unsuccessful, and no special arrangements have been made for the return of the loan, then material will be placed in storage at the lender's risk and expense.

4.4.4 **Outward Loans**

- a) Historical Services will consider lending material from any of its permanent collections to recognised cultural heritage institutions for exhibition or research purposes, on receipt of a written loan request. Material on loan to North Sydney Council will not be lent to a third party.
- b) Historical Services will decide whether the material is suitable for loan according to the following criteria: availability over requested time period, condition, cost of conservation work if required, risk assessment (to object as well as borrower), ethical considerations (e.g. cultural sensitivity), proposed purpose of loan, and suitability of the borrower. Historical Services will advise the prospective borrower of the decision in writing.
- c) Borrowers will confirm their intention and ability to provide an acceptable level of care, security and safekeeping for material, whether on display or in storage, and to conform to the specified conditions of the loan. Borrowers will not undertake any conservation treatment or invasive analysis of loaned material without prior consultation with Historical Services.
- d) Borrowers will undertake to acknowledge North Sydney Heritage Centre/Stanton Library as the source of material in any publications, and not to reproduce the material in any form without prior written approval from the Council Historian.
- e) Loans will only be made for a fixed period and specific purpose. Loans will be offered for a period of up to twelve months, or as determined by both parties. Extensions of the loan period may be made if mutually agreed. Material will not be offered on indefinite or permanent loan.
