Council's Community Engagement Coordinator has advised that electronic notification of this DA was sent to the Precinct Committee on 19 April 2022. March	4	Pedestrian crossing - Proposed raised pedestrian crossing on Clarke Street, west of the intersection with Willoughby Road, we note that prior to the closure of Hume Street for construction of the Metro Station, the 265 bus travelled west on Burlington St from its terminus, then turned north into Willoughby Rd, west into Clarke St, then west on Hume St to cross the Highway. We request clarification as to whether a bus can negotiate the proposed raised crossing which appears to be very close to the intersection	Council's Traffic & Transport Engineer has advised that the matter has been investigated. Firstly, during the crossing's design stage, the turning path for a 8.13m garbage truck was checked and confirmed for travel northbound on Willoughby Road then turning left at Clarke Street. Secondly, Council consulted Busways during the consultation stage in March 2022. Busways has raised no issues and concerns. Due to the construction of Metro station Crows Nest, temporary arrangement might be made between TfNSW and Busways, however, Council is not aware of the changes and the route might be temporary.
