Reference 200421.02FA		Supplementary Traffic Advice in Response to Council Comments For The Proposed Residential Development at 63 Carter Street, Cammeray	McLaren Traffic Engineering	17/8/2020

(Reason: To ensure that the form of the development undertaken is in accordance with the determination of Council, Public Information)

Reasons for Approval:

The s.4.56 application has been assessed against all applicable environmental planning instruments and Council policies and with regard to the Land and Environment Court decision, and is considered to be generally satisfactory, including in relation to s.4.56 of the *Environmental Planning and Assessment Act 1979*, the North Sydney LEP 2013 and North Sydney DCP 2013, subject to amended conditions of consent.

Having regard to the provisions of Section 4.15 of the EP&A Act 1979, the application is considered to be satisfactory as detailed in the assessment report.

How community views were taken into account:

The proposal was notified and advertised in accordance with s.3.4.3 of the North Sydney Community Engagement Protocol. No submissions were received.

The conditions attached to the original consent for Development Application No. **443/18** by endorsed date of 15 January 2020 still apply.

ADVISINGS

- (a) Council is always prepared to discuss its decisions and in this regard, please do not hesitate to contact **George Youhanna**. However, if you wish to pursue your rights of appeal in the Land and Environmental Court pursuant to Section 8.7 of the *Environmental Planning and Assessment Act 1979* (as amended), you are advised that Council generally seeks resolution of such appeals through a Section 34 Conference, instead of a full Court hearing, subject to any further advice to the contrary from Council's Solicitors and senior staff. Such an approach is less adversarial, it achieves a quicker decision than would be the case through a Court hearing and it can give rise to considerable cost and time savings for all parties involved.
- (b) Pursuant to Section 8.2, an applicant is able to request Council to review its determination. An application for a review under Section 8.2 of the Act must be made no later than 28 days after the date on which the application for the modification of the development consent was determined.
- (c) Prior to commencing any building, subdivision or associated constructions works, the following provisions of the *Environmental Planning and Assessment Act 1979* (the 'Act') are to be complied with:
 - (i) A Construction Certificate is to be obtained in accordance with Section 6.3 of the Act.
 - (ii) A Principal Certifier is to be appointed and Council is to be notified of the appointment in accordance with Section 6.6 of the Act.
 - (iii) Council is to be notified at least two (2) days of the intention to commence building works, in accordance with Section 6.6(2)(a) of the Act.
- (d) You are advised that changes to the external configuration of the building, changes to the site layout, density and unit configuration internal changes to the proposed building or any changes to the proposed operation of a use **MAY** require the submission of a further modification under Section 4.56 of the *Environmental Planning and Assessment Act, 1979* (as amended).

Council staff would be pleased to assist in identifying such changes which may require the submission of a modification of a Development Application under Section 4.56 of *the Environmental Planning and Assessment Act*.
