

Mr Rod Pascoe
Level 1, 100 Cumberland Street
THE ROCKS NSW 2000

D20/22
GJY (CIS)

**ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 AS AMENDED
NOTICE OF DETERMINATION - Approval**

Development Application Number:	20/22
Land to which this applies:	168 Walker Street North Sydney Lot No.: 100, DP: 1172241
Applicant:	Mr Rod Pascoe
Proposal:	Fitout, use and signage for four (4) retail, and food and drink tenancies
Determination of Development Application:	Subject to the provisions of Section 4.17 of <i>the Environmental Planning and Assessment Act 1979</i> , approval has been granted subject to conditions in the notice of determination.
Date of Determination:	26 October 2022
Reasons for Approval	<p>The proposal was considered under the relevant Environmental Planning Instruments and policies including NSLEP 2013 and NSDCP 2013 and is satisfactory.</p> <p>The matters raised in submissions have been considered in the assessment and where relevant addressed through conditions of consent.</p>
Consent to operate from:	8 November 2022
Consent will lapse on:	8 November 2027

Period of Consent

Subject to Section 4.20 of the Act, this consent becomes effective and operates from the date listed above. The consent lapses five years after the date of consent in accordance with Section 4.53 of the Act and cannot be extended. To activate this consent, works must physically commence onsite by 3 November 2027.

How community views were taken into account:

Two submissions were received. Late night trading, noise impacts and venues selling alcohol close to Wenona school have been identified as concerns. A number of conditions including a trial period for the proposed late night trading hours have been imposed, in addition to requiring compliance with the acoustic report recommendations and the plan of management, at all times. On this basis, the proposal is considered satisfactory with regard to the concerns raised in submissions.

Review of determination and right of appeal:

Within six months after the date of notification of the decision, a review of this determination can be requested under Division 8.2 of the Act or an appeal to the Land and Environment Court made pursuant to the provisions of Section 8.7 of the Act. A review of determination should be lodged as soon as possible, and preferably no later two months after the date of notification of the decision to enable the review to be completed within the six-month period.

Plans endorsed by the consent authority - please refer to condition A1.

Endorsed for and on behalf of North Sydney Council

8 November 2022

DATE

Signature on behalf of consent authority
GEORGE YOUHANNA
EXECUTIVE PLANNER

(i) **Conditions**

Consent is granted subject to the following conditions imposed pursuant to Section 4.17 of the *Environmental Planning and Assessment Act 1979* ("the Act") and the provisions of the *Environmental Planning and Assessment Regulation 2000* ("the Regulation") such conditions being reasonable and relevant to the development as assessed pursuant to Section 4.17 of the Act.

(ii) **Definitions**

Unless specified otherwise, words have the same meaning as defined by the Act, the Regulation and the *Interpretation Act 1987* as in force at the date of consent.

Applicant means the applicant for this consent.

Approved Plans means the plans endorsed by Council referenced by this consent as amended by conditions of this consent.

AS or **AS/NZS** means Australian Standard® or Australian/New Zealand Standard®, respectively, published by Standards Australia International Limited.

NCC means the National Construction Code as published by the Australian Building Codes Board as in force at the date of issue of any *Construction Certificate*.

Council means North Sydney Council.

Court means the Land and Environment Court.

Local Native Plants means species of native plant endemic to North Sydney LGA.

Stormwater Drainage System means all works, facilities and documentation relating to:

- The collection of stormwater,
- The retention of stormwater,
- The reuse of stormwater,
- The detention of stormwater,
- The controlled release of stormwater; and
- Connections to easements and public stormwater systems.

Owner means the owner of the *site* and successors in title to the *site*.

Owner Builder has the same meaning as in the *Home Building Act 1989*.

Principal Certifier for building or subdivision work means the certifier appointed as the principal certifier for the building work under section 6.6 (1) or for the subdivision work under section 6.12 (1).

Principal Contractor for building work means the person responsible for the overall coordination and control of the carrying out of the building work.

Note: If any residential building work is involved, the principal contractor must be the holder of a contractor licence under the *Home Building Act 1989*.

Professional Engineer has the same meaning as in the *NCC*.

Public Place has the same meaning as in the *Local Government Act 1993*.

Road has the same meaning as in the *Roads Act 1993*.

SEE means the final version of the Statement of Environmental Effects lodged by the *Applicant*.

Site means the land being developed subject to this consent.

NSLEP 2013 means *North Sydney Local Environmental Plan 2013*

NSDCP 2013 means *North Sydney Development Control Plan 2013*

Work for the purposes of this consent means:

- the use of land in connection with development,
- the subdivision of land,
- the erection of a building,
- the carrying out of any work,
- the use of any site crane, machine, article, material, or thing,
- the storage of any waste, materials, site crane, machine, article, material, or thing,
- the demolition of a building,
- the piling, piercing, cutting, boring, drilling, rock breaking, rock sawing or excavation of land,
- the delivery to or removal from the *site* of any machine, article, material, or thing, or
- the occupation of the *site* by any person unless authorised by an *occupation certificate*.

Note: **Interpretation of Conditions** - Where there is any need to obtain an interpretation of the intent of any condition this must be done in writing to Council and confirmed in writing by Council.

		Plan of Management	Etymon Projects	Nov 2021

(Reason: To ensure that the form of the development undertaken is in accordance with the determination of Council, Public Information)

Plans on Site

A2. A copy of all stamped approved plans, specifications and documents (including the plans, specifications and documents submitted and approved with the Construction Certificate) must be kept on site at all times so as to be readily available for perusal by any officer of Council or the Principal Certifying Authority.

All documents kept on site in accordance with this condition must be provided to any officer of the Council or the certifying authority upon their request.

(Reason: To ensure that the form of the development undertaken is in accordance with the determination of Council, Public Information and to ensure ongoing compliance)

Amended Plan of Management

A3. The submitted Plan of Management by Etymon Projects, dated November 2021, is to be amended to reflect the approved hours of operation. In this regard, a trial period has been approved in Condition I2 and at the conclusion of the trial period the hours of operation shall revert to the hours of operation approved in Condition I1, unless modified prior. The amended Plan of Management shall clearly reference and identify both the standard hours of operation and the trial period hours of operation. The Plan of Management shall be amended as detailed above, to the satisfaction of the Certifying Authority.

(Reason: Residential amenity, noise impacts)

Plan of Management

A4. The approved development shall be operated in accordance with the Plan of Management (as amended by Condition A3) at all times.

(Reason: Residential amenity, noise impacts)

C. *Prior to the Issue of a Construction Certificate (and ongoing, where indicated)*

No External Service Ducts

C1. Service ducts must be provided within the building to keep external walls free of plumbing, drainage or any other utility installations. Plans and specifications which comply with this condition must be submitted to the Certifying Authority for approval prior to the issue of any Construction Certificate. The Certifying Authority must ensure that the building plans and specifications submitted, referenced on and accompanying the issued Construction Certificate, fully satisfy the requirements of this condition.

(Reason: To ensure quality built form of the development)

Cleanliness and Maintenance of Food Preparation Areas

C2. To ensure that adequate provision is made for the cleanliness and maintenance of all food preparation areas, all building work in connection with the occupation or use of the premises for the preparation and storage of food shall be designed and carried out in accordance with the requirements of:

- a) the Food Act 2003;
- b) the Food Regulation;
- c) the relevant Australian Standards;
- d) Council's Food Premises Code;
- e) Sydney Water Corporation - Trade Waste Section;
- f) the Protection of the Environment Operations Act and associated Regulations; and
- g) the Building Code of Australia.

Plans and specifications which comply with this condition must be submitted to the Certifying Authority for approval prior to the issue of any Construction Certificate.

The Construction Certificate plans, and documentation must incorporate details of the following:

- a) construction, materials and finishes;
- b) installation of fixtures, fittings and equipment;
- c) washing facilities, other facilities and special requirements;
- d) mechanical ventilation and exhaust discharges; and
- e) temperature control

The Certifying Authority must ensure that the building plans and specifications submitted, referenced on and accompanying the issued Construction Certificate, fully satisfy the requirements of this condition.

(Reason: To ensure compliance with acceptable standards for the construction of food premises established under environmental health and safety legislation)

Garbage and Recycling Facilities

C3. Adequate provision must be made for the storage of waste and recyclable material generated by the premises. Plans and specifications which comply with this condition must be submitted to the Certifying Authority for approval prior to the issue of any Construction Certificate. The Certifying Authority must ensure that the building plans and specifications submitted, referenced on and accompanying the issued Construction Certificate, fully satisfy the requirements of this condition.

(Reason: To ensure the provision of appropriate waste facilities and to ensure efficient collection of waste by collection contractors)

Location of Plant

C4. All plant and equipment (including but not limited to air conditioning equipment) is to be located within the basement of the building and is not to be located on balconies or the roof. Plans and specifications complying with this condition must be submitted to the Certifying Authority for Approval prior to the issue of any Construction Certificate. The Certifying Authority must ensure that the building plans and specifications submitted, referenced on and accompanying the issued Construction Certificate, fully satisfy the requirements of this condition.

(Reason: Minimise impact on surrounding properties, improved visual appearance and amenity for locality)

Noise from Plant and Equipment

C5. The use of all plant and equipment installed on the premises must not:

- (a) Contribute an LAeq(15min) which will cause the total LAeq(15min) from all plant and equipment operating contemporaneously on the site or in the strata scheme or in the mixed strata schemes to exceed the RBL by more than 5dB when measured at the boundary of any affected receiver. The modifying factor adjustments in Section 4 of the EPA Industrial Noise Policy shall be applied.
- (b) Cause "offensive noise" as defined in the *Protection of the Environment Operations Act 1997*.

"affected receiver" includes residential premises (including any lot in the strata scheme or another strata scheme), premises for short-term accommodation, schools, hospitals, places of worship, commercial premises and parks and such other affected receiver as may be notified by the Council in writing.

"boundary" includes any window or elevated window of an affected receiver.

Terms in this condition have the same meaning as in the Noise Guide for Local Government and the Industrial Noise Policy published by the NSW Environment Protection Authority.

(Reason: To maintain an appropriate level of amenity for adjoining land uses)

Vibration from Plant and Equipment

- C6. The use of all plant and equipment to be installed on the premises must comply with the vibration limits specified in “Assessing Vibration: a technical guideline” issued by the NSW Environment Protection Authority, at the boundary of any affected receiver.

A certificate from an appropriately qualified acoustical consultant eligible for membership of the Association of Australian Acoustic Consultants must be submitted to the Certifying Authority, certifying that all plant and equipment on the site, together with the proposed plant and equipment, operating contemporaneously will comply with the requirements of this condition.

The Certifying Authority must ensure that the building plans and specifications submitted, referenced on and accompanying the issued Construction Certificate, fully satisfy the requirements of this condition.

“affected receiver” includes residential premises (including any lot in the strata scheme or another strata scheme), premises for short-term accommodation, schools, hospitals, places of worship and commercial premises and such other affected receiver as may be notified by the Council in writing.

“boundary” includes any window or elevated window of an affected residence.

“contemporaneously” means *existing at or occurring in the same period of time* (Macquarie Dictionary 3rd rev. ed. 2004).

(Reason: To maintain an appropriate level of amenity for adjoining land uses)

Noise Control (Licensed Premises)

- C7. The use of the premises must comply with the following:
- (a) The LA10 noise level emitted from the use of the premises must not exceed the background noise level (LA90) in any Octave Band Centre Frequency (31.5 Hz to 8 kHz inclusive) by more than 5dB between the hours of 7.00 am and 12.00 midnight when assessed at the boundary of any affected residence.
 - (b) The LA10 noise level emitted from the use must not exceed the background noise level (LA90) in any Octave Band Centre Frequency (31.5 Hz to 8 kHz inclusive) between the hours of 12.00 midnight and 7.00 am when assessed at the boundary of any affected residence.
 - (c) Notwithstanding compliance with (a) and (b) above, the noise from the use must not be audible within any habitable room or sleeping area in any affected residence between the hours of 12.00 midnight and 7.00 am.
 - (d) The LA10 noise level emitted from the use must not exceed the background noise level (LA90) in any Octave Band Centre Frequency (31.5 Hz to 8 kHz inclusive) by more than 3dB when assessed indoors at any affected commercial premises with windows closed.

- (e) The use of the premises must be controlled so that any emitted noise is at a level so as not to create an “*offensive noise*” as defined in the *Protection of the Environment Operations Act 1997*.

“affected residence” includes residential premises (including any lot in the strata scheme or any other strata scheme), premises for short-term accommodation and hospitals.

“boundary” includes any window or elevated window of an affected residence.

LA10 is the average maximum A-weighted Fast Response sound level emitted from the premises.

LA90 shall be measured in the absence of all noise from the premises (including mechanical plant noise).

Terms in this condition have the same meaning as in the Noise Guide for Local Government and the Industrial Noise Policy published by the NSW Environment Protection Authority.

(Reason: To ensure the amenity of surrounding land uses)

Compliance with Acoustic Report

- C8. All of the recommendations and assumptions contained in the acoustic report prepared by Arup, Issue 5, dated 16 September 2022, must be implemented during construction and use of the development.

A statement from an appropriately qualified acoustic consultant eligible for membership of the Association of Australian Acoustic Consultants, certifying that the acoustic mitigation measures outlined in the above stated report have been suitably incorporated into the development and that relevant noise criteria have been satisfied, must be submitted to the Certifying Authority for approval prior to the issue of any Construction Certificate.

The Principal Certifying Authority must ensure that the building plans and specifications submitted, referenced on and accompanying the issued Construction Certificate, fully satisfy the requirements of this condition.

(Reason: To maintain an appropriate level of amenity for adjoining land uses)

Noise and Vibration Compliance Certification Prior to Issue of Construction Certificate

- C9. A certificate from an appropriately qualified acoustical consultant eligible for membership of the Association of Australian Acoustic Consultants, certifying that suitable measures have been incorporated into the development and that the noise criteria contained in the conditions herein have been satisfied, must be provided to the Certifying Authority for approval prior to the issue of any Construction Certificate.

The Principal Certifying Authority must ensure that the building plans and specifications submitted, referenced on and accompanying the issued Construction Certificate, fully satisfy the requirements of this condition.

(Reason: To maintain an appropriate level of amenity for adjoining land uses)

Mechanical Exhaust Ventilation

C10. A statement from an appropriately qualified and practising Mechanical Engineer is required detailing how the exhaust ventilation system will be installed in accordance with AS1668. The Certifying Authority must ensure that the building plans and specifications submitted, referenced on and accompanying the issued Construction Certificate, fully satisfy the requirements of this condition.

(Reason: To ensure compliance with acceptable standards for the construction and operation of mechanical plant)

Provision of Accessible Paths of Travel

C11. The building must be designed and constructed to provide access and facilities in accordance with the Building Code of Australia and Disability (Access to Premises - Buildings) Standards 2010. Plans and specifications complying with this condition must be submitted to the Certifying Authority for approval prior to the issue of any Construction Certificate. The Certifying Authority must ensure that the building plans and specifications submitted, referenced on and accompanying the issued Construction Certificate, fully satisfy the requirements of this condition.

Notes:

1. If, in complying with this condition, amendments to the development are required, the design changes must be submitted for the approval of Council prior to a Construction Certificate being issued. Approval of a modification application may be required.
2. It is not within Council's power to set aside National legislation which requires the upgrade of buildings to meet modern access standards. Such decisions remain the jurisdiction of the Building Professionals Board Access Advisory Committee who may grant an exemption in certain exceptional circumstances.
3. Information on making an application for an "unjustifiable hardship exemption" under the accessibility standards can be found on the website of the NSW Building Professional Boards at <http://www.bpb.nsw.gov.au/page/premises-standards>.

(Reason: To ensure the provision of equitable and dignified access for all people in accordance with disability discrimination legislation and relevant Australian Standards)

Section 7.12 Contributions

C12. A monetary contribution pursuant to the provisions of Section 7.12 of the Environmental Planning and Assessment Act 1979 is to be paid to Council, in accordance with the North Sydney Council's Contribution Plan, to provide for local infrastructure improvements.

Based on the cost of development at the date of determination, the total contribution payable to Council is **\$51,166.02**.

Indexation

The monetary contribution required under this consent will be indexed at the time of payment in accordance with quarterly movements in the Consumer Price Index (All Groups Index) for Sydney as published by the Australian Bureau of Statistics.

Timing of Payment

The contribution must be paid to Council prior to issue of any Construction Certificate for any work approved by this consent.

A copy of the North Sydney Contribution Plan can be viewed at North Sydney Council's Customer Service Centre, 200 Miller Street, North Sydney or downloaded via Council's website at www.northsydney.nsw.gov.au.

(Reason: To provide for local infrastructure identified in the North Sydney Council Local Contributions Plan 2020)

D. Prior to the Commencement of any Works (and continuing where indicated)

Public Liability Insurance - Works on Public Land

D1. Any person or contractor undertaking works on public land must take out Public Risk Insurance with a minimum cover of \$20 million in relation to the occupation of public land and the undertaking of approved works within Council's road reserve or public land, as approved by this consent. The Policy is to note and provide protection/full indemnification for North Sydney Council, as an interested party. A copy of the Policy must be submitted to Council prior to commencement of any works. The Policy must be valid for the entire period that the works are being undertaken.

Note: Applications for hoarding permits, vehicular crossings etc will require evidence of insurance upon lodgement of the application.

(Reason: To ensure the community is protected from the cost of any claim for damages arising from works on public land)

Commencement of Works' Notice

D2. Building work, demolition or excavation in accordance with this development consent must not be commenced until the developer has given at least two days' notice to North Sydney Council of the person's intention to commence building work, demolition or excavation in accordance with this development consent.

(Reason: To ensure appropriate safeguarding measures are in place prior to the commencement of any building work, demolition or excavation)

E. During Demolition and Building Work

Noise and Vibration

E1. The works must be undertaken in accordance with the "Interim Construction Noise Guideline," published by the NSW Environment Protection Authority, to ensure excessive levels of noise and vibration do not occur so as to minimise adverse effects experienced on any adjoining land.

(Reason: To ensure residential amenity is maintained in the immediate vicinity)

No Work on Public Open Space

E2. No work can be undertaken within adjoining public lands (i.e., Parks, Reserves, Roads etc) without the prior written consent of Council. In this regard the developer is to liaise with Council prior to the commencement of any design works or preparation of a Construction and Traffic Management Plan.

(Reason: Protection of existing public infrastructure and land and to ensure public safety and proper management of public land)

Developer's Cost of Work on Council Property

E3. The developer must bear the cost of all works associated with the development that occurs on Council's property, including the restoration of damaged areas.

(Reason: To ensure the proper management of public land and funds)

Construction Hours (Commercial Core and Mixed-use Zones)

E4. Construction activities and works approved under this consent must be carried out only within the hours stipulated in the following table:

Location	Standard Construction Hours	
	Day	Hours
B3 Commercial Core Zone B4 Mixed-use Zone	Monday - Friday	7.00 am - 7.00 pm
	Saturday	8.00 am - 1.00 pm
	Sunday, Public holiday	No work permitted

Construction activities for development approved under this consent must be carried out in accordance with the standard construction hours above and any Construction Noise Management Plan required under this consent.

In the event of breach to the approved hours of construction Council take may take enforcement action under Part 9 of the EP&A Act 1979 and in accordance with Council's adopted Compliance and Enforcement Policy.

(Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community)

Site Amenities and Facilities

E5. Where work involved in the erection and demolition of a building is being carried out, amenities which satisfy applicable occupational health and safety and construction safety regulations, including any WorkCover Authority requirements, must be provided and maintained at all times. The type of workplace determines the type of amenities required.

Further information and details can be obtained from the Internet at www.workcover.nsw.gov.au.

(Reason: To ensure the health and safety of the community and workers on the site)

Health and Safety

- E6. All work undertaken must satisfy applicable occupational health and safety and construction safety regulations, including any WorkCover Authority requirements to prepare a health and safety plan. Site fencing must be installed sufficient to exclude the public from the site. Safety signs must be erected that warn the public to keep out of the site and provide a contact telephone number for enquiries.

Further information and details regarding occupational health and safety requirements for construction sites can be obtained from the internet at www.workcover.nsw.gov.au.

(Reason: To ensure the health and safety of the community and workers on the site)

Prohibition on Use of Pavements

- E7. Building materials must not be placed on Council's footpaths, roadways, parks or grass verges, (unless a permit is obtained from Council beforehand). A suitable sign to this effect must be erected adjacent to the street alignment.

(Reason: To ensure public safety and amenity on public land)

Plant and Equipment Kept Within Site

- E8. All plant and equipment used in the undertaking of the development/ works, including concrete pumps, wagons, lifts, mobile cranes, hoardings etc, must be situated within the boundaries of the site (unless a permit is obtained from Council beforehand) and so placed that all concrete slurry, water, debris and the like must be discharged onto the building site, and is to be contained within the site boundaries.

Details of Council requirements for permits on public land for standing plant, hoardings, storage of materials and construction zones and the like are available on Council's website at www.northsydney.nsw.gov.au.

(Reason: To ensure public safety and amenity on public land)

F. Prescribed Conditions imposed under EP&A Act and Regulations and other relevant Legislation

National Construction Code

- F1. All building work must be carried out in accordance with the provisions of the National Construction Code.

(Reason: Prescribed - Statutory)

Appointment of a Principal Certifying Authority (PCA)

- F2. Building work, demolition or excavation in accordance with the development consent must not be commenced until the developer has appointed a Principal Certifying Authority for the building work in accordance with the provisions of the EP&A Act and its Regulations.

(Reason: Statutory: To ensure appropriate safeguarding measures are in place prior to the commencement of any building work, demolition or excavation)

Construction Certificate

F3. Building work, demolition or excavation in accordance with the development consent must not be commenced until a Construction Certificate for the relevant part of the building work has been issued in accordance with the provisions of the EP&A Act and its Regulations.

(Reason: Statutory: To ensure appropriate safeguarding measures are in place prior to the commencement of any building work, demolition or excavation)

Occupation Certificate

F4. A person must not commence occupation or use of the whole or any part of a new building (*new building* includes an altered portion of, or an extension to, an existing building) unless an Occupation Certificate has been issued in relation to the building or part. Only the Principal Certifying Authority appointed for the building work can issue an Occupation Certificate.

(Reason: Statutory)

Critical Stage Inspections

F5. Building work must be inspected by the Principal Certifying Authority on the critical stage occasions prescribed by the EP&A Act and its Regulations, and as directed by the appointed Principal Certifying Authority.

(Reason: Statutory)

Commencement of Works

F6. Building work, demolition or excavation in accordance with this development consent must not be commenced until the developer has given at least two (2) days' notice to North Sydney Council of the person's intention to commence the erection of the building.

(Reason: Statutory: To ensure appropriate safeguarding measures are in place prior to the commencement of any building work, demolition or excavation)

G. *Prior to the Issue of an Occupation Certificate*

Access to Premises

G1. Prior to the issue of any Occupation Certificate, a certificate must be prepared by an appropriately qualified and practising Civil Engineer certifying that access and facilities for persons with a disability in accordance with the Building Code of Australia and AS Disability (Access to Premises - buildings) Standards 2010 (Premises Standards) has been provided. This certificate must be submitted to, and approved by, the Certifying Authority prior to issue of the Occupation Certificate.

(Reason: Equitable access and facilities for people with a disability)

Noise Certification

G2. Prior to issue of the any Occupation Certificate a certificate from an appropriately qualified acoustical consultant eligible for membership of the Association of Australian Acoustic Consultants is to be submitted to, and approved by, the Certifying Authority certifying that the noise and vibration from use of the development complies with the conditions of consent herein.

(Reason: To ensure acoustic amenity)

Certification for Mechanical Exhaust Ventilation

G3. Prior to issue of an Occupation Certificate and following the completion, installation, and testing of all the mechanical ventilation systems, a Mechanical Ventilation Certificate of Completion and Performance in accordance with Clause A2.2(a)(iii) of the Building Code of Australia, must be submitted to, and approved by, the Certifying Authority.

(Reason: To ensure compliance with acceptable standards for the construction and operation of mechanical plant)

I. Ongoing/Operational Conditions

Hours of Operation

I1. The hours of operation are restricted to:

TABLE B-7.1 Maximum Trading Hours		
ZONE	Trading Hours	
	Indoor	Outdoor
B4 Mixed-use	7.00 am to 11.00 pm (Monday to Wednesday)	7.00 am to 10.00 pm
	7.00 am to midnight (Thursday to Saturday)	
	7.00 am to 10.00 pm (Sunday)	

Upon expiry of the permitted hours:

- (a) all restaurant service (and entertainment) must immediately cease;
- (b) no person shall be permitted entry; and
- (c) all customers on the premises must be required to leave within the following half hour.

(Reason: to ensure that amenity of the surrounding locality is maintained, and hours of operation are consistent with those in surrounding locality)

Hours of Operation - Trial Period

I2. Notwithstanding **Condition I1** above the approved use may operate between:

- Japanese Restaurant: 11.00 am to 12.00 am
- Bakery/Wine Bar: 7.00 am to 12.00 am
- Providore: 7.00 am to 10.00 pm
- All Day Diner: 6.00 am to 12.00 am

for a trial period of **24 months** from the date of issue of the first Occupation Certificate, being interim or otherwise. Council must be informed in writing of the date of commencing the trial period.

In order for the above trial hours of operation to be confirmed as ongoing, a modification application must be lodged with Council prior to the expiration of the trial period. The assessment of the application to continue the use in accordance with the trial, will consider amongst other things, the impact of the use on surrounding areas the performance of the operation in relation to compliance with development consent conditions.

In the event that no modification application is lodged, or an application is not approved, then the hours of operation for the premises must revert to the standard hours of operation identified by this consent.

Note: Any person acting on this consent is advised that any modification application to the trial hours of operation period should be submitted to Council a minimum of ninety (90) days prior to the expiration of the trial period in order to avoid the trial period lapsing.

(Reason: To ensure safety and security and protect the amenity of surrounding areas)

Trade Waste

13. Trade wastewater must be disposed of in accordance with the permit requirements of Sydney Water Corporation Ltd, Wastewater Source Control Branch.

(Reason: To ensure compliance with Sydney Water's requirements and protect the environment)

Noise and Vibration Impact

14. The ongoing use of the premises approved under this consent must comply with all conditions pertaining to noise and vibration specified in this consent.

(Reason: To ensure compliance with the specified levels of noise and vibration and to maintain the amenity of surrounding land uses)

Noise and Vibration Impact (Compliance)

15. Within 60 days of commencement of operation of the premises, further acoustic testing must be undertaken and a report from an appropriately qualified acoustical consultant eligible for membership of the Association of Australian Acoustic Consultants, prepared to demonstrate that the use of the premises complies with the conditions of this consent and/or the Acoustic Report prepared by Arup, Issue 5, dated 16 September 2022.

The testing must be carried out when the premises is operating at full capacity. A copy of the report must be submitted to Council within 14 days of its completion.

If the use is found not to comply with the noise conditions, the use must cease immediately until appropriate measures to remedy the breach are implemented to the satisfaction of Council.

(Reason: To ensure compliance with acceptable noise levels to maintain the amenity of adjoining land uses)

Existing Loading Dock

16. Vehicle deliveries and loading and unloading operations must occur within the site. The existing loading dock must be maintained at all times for use in connection with the development.

(Reason: To ensure that deliveries occur within the site and do not adversely affect traffic or pedestrian amenity)

Loading within Site

17. All loading and unloading operations must be carried out wholly within the confines of the site, at all times and must not obstruct other properties or the public way.

(Reason: To ensure that deliveries can occur safely within the site and does not adversely affect traffic or pedestrian amenity)

No Entertainment

18. This approval is for a restaurant/cafe only and does not authorise musical or other forms of entertainment. A separate development consent is required for any proposed entertainment.

(Reason: Clarification of terms of this consent and ensure compliance with relevant legislation)

Patron Behaviour

19. The proprietors/management of the premises must take all steps necessary to ensure that no noise nuisance occurs from persons entering or leaving the premises. The proprietors/management must ensure that:

- (a) A sign is placed in clearly visible position adjacent to the entry/exit of the premises requesting patrons upon leaving the premises to do so quickly and quietly, having regard to maintaining the amenity of the area.
- (b) The [management/licensee] must ensure that the behaviour of patrons entering and leaving the premises does not detrimentally affect the amenity of the neighbourhood.
- (c) The [management/licensee] must be responsible for the control of noise and litter generated by patrons of the premises and must ensure that patrons leave the vicinity of the premises in an orderly manner to the satisfaction of Council.
- (d) If so directed by Council, the [management/licensee] is to employ private security staff to ensure that this condition is complied with.

(Reason: To ensure patrons do not interfere with the acoustic amenity of residents in the immediate locality)

Waste Collection

110. Waste and recyclable material, generated by this premises, must not be collected between the hours of 10.00 pm and 6.00 am on any day.

(Reason: To ensure the amenity of surrounding properties)

Delivery Hours

111. No deliveries, loading or unloading associated with the premises are to take place between the hours of 10.00 pm and 6.00 am on any day.

(Reason: To ensure the acoustic amenity of surrounding properties)

Shop Premises Registration

112. The shop premises must be registered with Council and NSW Food Authority prior to commencement of operation of the approved activity. Shop Premises Registration must be maintained at all times.

Note:

- a) Council registration forms can be found at <http://www.northsydney.nsw.gov.au>.
- b) Notification is required to the NSW Food Authority under Standard 3.2.2 Division 2 Section 4 Notification. (see www.foodnotify.nsw.gov.au).

(Reason: To ensure compliance with environmental health legislation)

NSW Police Condition

- 113.
- a) Contact details for the building's operations manager and security manager should be provided to North Shore Police.
 - b) An after-hours contact for the building should be provided to North Shore Police.
 - c) The location should be clearly identified with signage that is visible from the street. This will enable all emergency services to locate the premises.
 - d) An electronic surveillance system should be included to provide maximum surveillance of all public areas of the building including entry/exits and outdoor areas. The system should be capable of recording high-quality images of events. The recording equipment should be locked away to reduce the likelihood of tampering.
 - e) An intruder alarm system should be designed and installed to the Australian Standard - Domestic AND Commercial Alarm Systems to enhance the physical security of the premises.
 - f) Appropriate signage should be erected inside and around the perimeter of the entire property to warn of security treatments in place e.g., "This site is under 24-hour video surveillance."
 - g) All 'Staff only' areas should be clearly marked as such and physical barriers such as doors and gates should be erected to prevent unauthorised entry.
 - h) Staff should be provided with a secure area in which to store their personal effects whilst working.
 - i) Lighting in and around the proposed development should comply with Australian Standard AS: 1158 and should provide for adequate, uniform illumination. External lighting should be of a 'white light' source. Note that high- or low-pressure sodium 'orange' lighting is not compatible with quality surveillance systems. Internal lighting should be controlled from 'Staff only' areas, away from public access. If this is not possible, use tamper-resistant switches. Luminaries (light covers) should be designed to reduce opportunities for malicious damage. Internal after-hours security lighting should provide adequate illumination to allow inspection by security patrols.
 - j) Doors should be of solid construction and should be fitted with quality deadlock sets that comply with the Building Code of Australia and Australian Standards - Lock Sets AS:4145.

- k) Windows within the building should also be of solid construction. These windows should be fitted with quality window lock sets that comply with the Australian Standards - Lock Sets AS:4145. Glass within doors and windows should be reinforced to restrict unauthorised access. The glass can be either fitted with a shatter-resistant film or laminated to withstand physical attacks.
- l) An emergency control and evacuation plan should be implemented within the club and all staff should be trained in its execution. Instructions should also be displayed in the building.
- m) All recording made by the CCTV system must be stored for at least 30 days and ensure that the system is accessible by at least one member of staff at all times it is in operation, and provide any recordings made by the system to a police officer or inspector within 24 hours of any request by a police officer or inspector. The CCTV cameras will need to be placed in suitable locations to enhance the physical security and assist in positively identifying an individual, who may be involved in criminal behaviour.
- n) Wheelchair access (ramps) should at no time be blocked nor impede access to anyone with a disability.
- o) Building management should ensure the centre has adequate security personnel on site during trading hours.
- p) Signs should be placed in the car park warning people of the risk of theft and advising against leaving valuables in their vehicles.

(Reason: NSW Police requirements, public safety and security)
