BACKGROUND

The St Leonards Park Landscape Masterplan (SLP LMP) was adopted in 2018 after extensive community and stakeholder consultation and engagement. Implementation of the works identified in the SLP LMP is being carried out over stages as funding and resources have permitted. These have included the multi-award-winning Stage 1- Miller Street Forecourt, Stage 2- Tunks Way and Field Gun and most recently Stage 3- Southern Lawn. Construction of the upgraded and extended playspace is due for completion in January 2023.

Numerous small, discrete, projects have also been delivered including the upgrade of the practice cricket wicket adjacent to the Parks Dept, the shared pedestrian and bicycle path along Ridge Street and the ornamental planting of garden areas at the corner of Miller and Falcon Street.

The Lighting and Electrical Upgrade work will see the majority of remaining pathway lights changed from the current ball and stick to the taller elegant slim line poles used in the preceding stages. All pathway poles will be red with a luminaire to finish off the top of the post and directional lights will illuminate the pathways. The new style of pole and luminaire can be seen along Tunks Way and the Southern Lawn pathway.

Substantial work is required to ensure that the existing tree canopy and extensive root systems are protected throughout this work. In addition to the detailed specifications and controls to ensure tree protection, a consulting arborist has also been engaged by Council staff to provide advice and guidance to the contractor during this work.

CONSULTATION REQUIREMENTS

Community engagement is not required.
