ADDENDUM TO REPORT OF MARCELO OCCHIUZZI – MANAGER STRATEGIC PLANNING 18 APRIL 2023

SUBJECT: 10.10 PARKING DRAFT DCP AMENDMENTS – POST
EXHIBITION REPORT

AUTHOR: MARCELO OCCHIUZZI – MANAGER STRATEGIC PLANNING

DATE: 18 APRIL 2023

SUMMARY

The body of the report at item *10.10 Parking Draft DCP Amendments – Post Exhibition Report*, includes an overview of submissions (p.5). That summary briefly describes the various Precinct Committees that made submissions as well as industry groups. That summary erroneously excluded reference to the Hayberry Precinct Committee. That Precinct Committee registered its objection to the proposed amendment for many of the reasons identified throughout the body of the report including spill over of parking and pressure on already limited parking, that there are many in the community that for different reasons may depend on access to a private vehicle as well as the potential to encourage developers to provide off street parking to non-building residents.

RECOMMENDATION:

That this addendum be noted.
