(Reason: To ensure that the form of the development undertaken is in accordance with the determination of Council, Public Information)

**2. Condition A4 is amended as follows:**

**External Finishes and Materials**

A4. External finishes and materials must be in accordance with the submitted schedule dated 9 March 2021, prepared by Gartner Trovato Architects, and received by Council on 25 March 2021 unless otherwise modified by Council in writing and the conditions of this consent.

(Reason: To ensure that the form of the development undertaken is in accordance with the determination of Council, Public Information)

**3. Condition C21 is amended as follows:**

**BASIX Certificate**

C21. Under clause 75 of the *Environmental Planning & Assessment Regulation 2021*, it is a condition of this development consent that all the commitments listed in BASIX Certificate No. A400642\_02 for the development are fulfilled. Plans and specifications complying with this condition must be submitted to the Principal Certifier for approval prior to the issue of the relevant Construction Certificate. The Principal Certifier must ensure that the building plans and specifications submitted, referenced on, and accompanying the issued Construction Certificate, fully satisfy the requirements of this condition.

(Reason: To ensure the proposed development will meet the Government's requirements for sustainability and statutory requirements)

**4. Condition G7 is amended as follows:**

**BASIX Completion Receipt**

G7. In accordance with Section 45 of the *Environmental Planning and Assessment (Development Certification and Fire Safety) Regulation 2021*, prior to issuing a final occupation certificate the Principal Certifier must provide a BASIX completion receipt.

(Reason: To ensure compliance with the Regulations)

**Reasons for Approval:**

The proposed modifications satisfy the provisions of Section 4.55(2) in that the proposed development remains substantially the same as what was approved by DA 75/21. The proposal will not alter the use of the development and will have minimal environmental impacts given that the majority of the modifications will be within the existing footprint of the building and will not adversely affect the built form character of the area nor the amenity of adjoining properties.

The proposed modifications would not significantly change the level of compliance with the relevant development standards and controls as contained in North Sydney LEP 2013 and North Sydney DCP 2013. Notably, the proposal is wholly contained within the footprint of the development and will not significantly alter the building height, bulk and massing, setbacks, site coverage, landscaped area, and unbuilt-upon area, of the approved scheme.

The minor changes to the approved development will not result in any adverse environmental impacts upon the surrounding area or nearby upon nearby commercial and residential uses. Accordingly, the proposal remains consistent with the original reasons for granting consent.

The proposal was found to be acceptable in the site circumstances and is recommended that the subject Section 4.55(2) application be approved.

**How community views were taken into account:**

The subject application was notified to adjoining properties and the precinct committee seeking comment, and no submissions were received. Nevertheless, it is considered that the proposed modifications would not substantially alter the potential impacts in comparison to the approved development and would not cause any unreasonable impacts to the streetscape and/or adjoining properties.

The conditions attached to the original consent for Development Application No. **75/21** by endorsed date of **2 June 2021** still apply.

**ADVISINGS**

- (a) Council is always prepared to discuss its decisions and, in this regard, please do not hesitate to contact **Andrew Beveridge** However, if you wish to pursue your rights of appeal in the Land and Environmental Court pursuant to Section 8.7 of *the Environmental Planning and Assessment Act 1979* (as amended), you are advised that Council generally seeks resolution of such appeals through a Section 34 Conference, instead of a full Court hearing, subject to any further advice to the contrary from Council's Solicitors and

senior staff. Such an approach is less adversarial, it achieves a quicker decision than would be the case through a Court hearing and it can give rise to considerable cost and time savings for all parties involved.

- (b) Pursuant to Section 8.2, an applicant is able to request Council to review its determination. An application for a review under Section 8.2 of the Act must be made no later than 28 days after the date on which the application for the modification of the development consent was determined.
- (c) Prior to commencing any building, subdivision or associated constructions works, the following provisions of *the Environmental Planning and Assessment Act 1979* (the 'Act') are to be complied with:
  - (i) A Construction Certificate is to be obtained in accordance with Section 6.3 of the Act.
  - (ii) A Principal Certifier is to be appointed and Council is to be notified of the appointment in accordance with Section 6.6 of the Act.
  - (iii) Council is to be notified at least two (2) days of the intention to commence building works, in accordance with Section 6.6(2)(a) of the Act.
- (d) You are advised that changes to the external configuration of the building, changes to the site layout, density and unit configuration internal changes to the proposed building or any changes to the proposed operation of a use **MAY** require the submission of a further modification under Section 4.55 of *the Environmental Planning and Assessment Act, 1979* (as amended).

Council staff would be pleased to assist in identifying such changes which may require the submission of a modification of a Development Application under Section 4.55 of *the Environmental Planning and Assessment Act*.
