(Reason: To ensure that the form of the development undertaken is in accordance with the determination of Council, Public Information)

**Reason for approval**

The proposed modifications are considered to be of minimal environmental impact and are consistent with the originally approved development application and s.4.55 of the EP & A Act 1979. Furthermore, the modifications do not result in any new material amenity impact to adjoining properties or the surrounding area. The proposed modifications are consistent with the reasons for the granted of development consent to the originally approved development and is considered to be acceptable.

Having regard to the provisions of section 4.55 & 79C of the Environmental Planning and Assessment Act 1979, the proposed development as modified is substantially the same development as originally consented to. The application is therefore recommended for **approval**.

**How were community views taken into account in making the decision**

The owners of adjoining properties and the Registry Precinct were notified of the proposed development for a 14-day period, between 9 November 2018 and 23 November 2018 in accordance with section 4 of NSDCP 2013. The notification resulted in **one (1) submission** in support of the proposal.

The conditions attached to the original consent for Development Application No. 77/18 by endorsed date of 21 March 2018 still apply.

**ADVISINGS**

- (a) Council is always prepared to discuss its decisions and in this regard, please do not hesitate to contact **Kim Rothe**. However, if you wish to pursue your rights of appeal in the Land and Environmental Court pursuant to Section 8.7 of the *Environmental Planning and Assessment Act, 1979* (as amended), you are advised that Council generally seeks resolution of such appeals through a Section 34 Conference, instead of a full Court hearing, subject to any further advice to the contrary from Council's Solicitors and senior staff. Such an approach is less adversarial, it achieves a quicker decision than would be the case through a Court hearing and it can give rise to considerable cost and time savings for all parties involved.

The use of the Section 34 Conference approach requires the appellant to agree, in advance and in writing, that the Court appointed assessor will be given the full authority to completely determine the matter at the conference.

- (b) Pursuant to Section 8.2, an applicant is able to request Council to review its determination. An application for a review under Section 8.2 of the Act must be made no later than 28 days after the date on which the application for the modification of the development consent was determined.
- (c) Prior to commencing any building, subdivision or associated constructions works, the following provisions of the *Environmental Planning and Assessment Act, 1979* (the 'Act') are to be complied with:
  - (i) A Construction Certificate is to be obtained in accordance with Section 6.3 of the Act.
  - (ii) A Principal Certifying Authority is to be appointed and Council is to be notified of the appointment in accordance with Section 6.6 of the Act.
  - (iii) Council is to be notified at least two (2) days of the intention to commence building works, in accordance with Section 6.6(2)(a) of the Act.
- (d) You are advised that changes to the external configuration of the building, changes to the site layout, density and unit configuration internal changes to the proposed building or any changes to the proposed operation of a use **MAY** require the submission of a further modification under Section 4.55 of the *Environmental Planning & Assessment Act, 1979* (as amended).

Council staff would be pleased to assist in identifying such changes which may require the submission of a modification of a Development Application under Section 4.55 of the Environmental Planning & Assessment Act.
