ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 AS AMENDED
NOTICE OF DETERMINATION – Approval

Development Application Number: **308/19**

Land to which this applies:

20-22 Waruda Street, Kirribilli
Lot Nos: 2 and 27 SP: 58872

Applicant:

Frank M Mason & Co Pty Limited

Proposal:

Amendment of Strata Plan for Lots 2 and 27 Waruda Street, SP 57782

Determination of Development Application:

Subject to the provisions of Section 4.17 of the Environmental Planning and Assessment Act 1979, approval has been granted subject to conditions in the notice of determination.

Date of Determination:

6 December 2019

Reason for approval:

This development application seeks an amendment of a Strata Plan at 22 Waruda Street , which would not alter the use or the form of the building.

Furthermore, there would be no impacts on the residential amenity of the subject site and the adjoining properties as well as the character of the locality as a result of the proposed development.

The proposal was found to be acceptable in the site circumstances and is recommended that the subject application be approved.

Consent to operate from:

13 December 2013

Consent will lapse on: 13 December 2024

Period of Consent

Subject to Section 4.20 of the Act, this consent becomes effective and operates from the date listed above. The consent lapses five years after the date of consent in accordance with Section 4.53 of the Act and cannot be extended. To activate this consent, works must physically commence onsite by 13 December 2024.

How community views were taken into account:

Notification was not required for the subject DA, pursuant to Part A section 4 in the NSDCP 2013, but Council has considered the impacts of the proposed strata amendment, and considers the potential affects to the community as minor given the extent of the current proposal. Nevertheless, conditions were imposed with the original DA to preserve residential amenity.

Review of determination and right of appeal:

Within 6 months after the date of notification of the decision, a review of this determination can be requested under Division 8.2 of the Act or an appeal to the Land and Environment Court made pursuant to the provisions of Section 8.7 of the Act. A review of determination should be lodged as soon as possible, and preferably no later two months after the date of notification of the decision to enable the review to be completed within the six-month period.
