---

**Reason for approval:**

The development application has been assessed against the relevant planning instruments and policies, in particular the North Sydney Local Environmental Plan 2013 and the North Sydney Development Control Plan 2013, and generally found to be satisfactory.

There would be no unreasonable overshadowing, view loss, privacy loss and/or excessive bulk and scale as a result of the proposed modifications given that the works are primarily located within the approved footprint of the building on site. The works will generally be sympathetic to the overall design of the subject development and the character of the Palmer Neighbourhood. As a result, the proposed works will provide additional resident amenity without negatively impacting the dwelling or neighbourhood amenity or character.

The application is considered to be acceptable in the circumstances and it is recommended for **approval** subject to standard and site specific conditions.

---

**How community views were taken into account:**

The subject application was notified to adjoining properties and the Bay Precinct Committee seeking comment and no submissions were received. Nevertheless, it is considered that the proposed modifications will provide improved amenity for the users, visitors, and staff of the subject site without having any adverse impact upon the streetscape, the amenity of adjoining properties and the character of the locality.

---

The conditions attached to the original consent for Development Application No. 404/16 by endorsed date of 3 May 2017 still apply.

**ADVISINGS**

- (a) Council is always prepared to discuss its decisions and in this regard, please do not hesitate to contact **Andrew Beveridge**. However, if you wish to pursue your rights of appeal in the Land and Environmental Court pursuant to Section 8.7 of the Environmental Planning and Assessment Act 1979 (as amended), you are advised that Council generally seeks resolution of such appeals through a Section 34 Conference, instead of a full Court hearing, subject to any further advice to the contrary from Council's Solicitors and senior staff. Such an approach is less adversarial, it achieves a quicker decision than would be the case through a Court hearing and it can give rise to considerable cost and time savings for all parties involved.

- (b) Pursuant to Section 8.2, an applicant is able to request Council to review its determination. An application for a review under Section 8.2 of the Act must be made no later than 28 days after the date on which the application for the modification of the development consent was determined.
- (c) Prior to commencing any building, subdivision or associated constructions works, the following provisions of the Environmental Planning and Assessment Act 1979 (the 'Act') are to be complied with:
  - (i) A Construction Certificate is to be obtained in accordance with Section 6.3 of the Act.
  - (ii) A Principal Certifier is to be appointed and Council is to be notified of the appointment in accordance with Section 6.6 of the Act.
  - (iii) Council is to be notified at least two (2) days of the intention to commence building works, in accordance with Section 6.6(2)(a) of the Act.
- (d) You are advised that changes to the external configuration of the building, changes to the site layout, density and unit configuration internal changes to the proposed building or any changes to the proposed operation of a use **MAY** require the submission of a further modification under Section 4.55 of the Environmental Planning & Assessment Act, 1979 (as amended).

Council staff would be pleased to assist in identifying such changes which may require the submission of a modification of a Development Application under Section 4.55 of the Environmental Planning & Assessment Act.
